

Nepean Concert Band - Equipment Manager's Report - 2010-2011

J.P. Beauregard

The main physical assets of the band are the Percussion Equipment and the Music Library.

Percussion Equipment. An inventory of all the major pieces of equipment was carried out with Warren's help. Since I am out of country until early April I will be unable to supply a copy of that inventory until my return. At that time, inventory of all the minor pieces of equipment should be carried out and a realistic replacement value established for all the equipment. Insurance coverage should be reviewed in light of this new estimate.

Music Library. As a rough guess, the library replacement value might be between \$30,000 and \$50,000. Since the library was not covered by insurance, I asked the Treasurer to obtain a preliminary quotation from our insurer. It is suggested that the Librarian, say with the help of the Music Committee, make a more informed estimate of the library's replacement value. The band executive would then be in a position to decide on appropriate insurance coverage.

The outgoing Equipment Manager would be pleased to assist in these matters.
