

Warren McGovern - Librarian's Report (2015-16)

Again we have demonstrated our versatility and our passion for diversity of music. A whole slew of exceptional movie soundtracks re asserts our penchant for exciting variety and agility of style. Those titles include **Raiders March, Mancini!, Lawrence of Arabia, Out to Sea and the Shark Cage Fugue, Magnificent 7, The Mission,** and **Bond...James Bond.**

The crowds that we see in the Park and in CVUC are indicative of the great choices and preparation of our achievements. It also shows we are taking the right direction in Music Selection.

Again, thanks for following the music pull formula of recently that expedites the sorting and filing that aides in keeping the repertoire complete and in order.

Our cabinet space still has room for additional repertoire. Fortunately it is likely that it will be years until we need to add to the fleet of filing cabinets.
