

Warren McGovern - Librarian's Report (2016-17)

The library has expanded in all directions and taken the right route in filling out our Canadian content with exceptional titles befitting our sesquicentennial celebrations. Also in 2017 we also acquired the fitting piece to round out our Nutcracker suite with Waltz of the Flowers.

After many edits, starts & stops we can now up-load a fresh and put to date Library list to the website. It will be updated complete to the most recent Purchase of Hawaii 5-0. This could not be achieved with-out the guidance and assistance of past librarian Doug Cummings. Thank you so much for this.

Two of our cabinets are starting to 'fight back' upon opening and closing. It may be an issue to look at more closely in the next year or two at the current cabinet and one of the 'General pop' Cabinets. They are well beyond their prime and replacement may be an option to consider.

Warren McGovern
Librarian
